Grades: Pre-Kindergarten through Grade 5
School Colors: Blue and White
School Mascot: Falcons
School Theme: "Believe! Achieve! SOAR!"
Enrollment: 516
Average Class Size: 19

Brief Summary of Instructional Program

As of the 2018-2019 school year, Cherryvale Elementary STEAM School is newly consolidated with the former F. J. DeLaine Elementary School. As a result of this event, the school has three area of foci in order to achieve established goals and objectives that support the Profile of the South Carolina Graduate. Faculty and staff provide daily opportunities for students to participate in well prepared instructional activities and to reflect upon personal choices made throughout the day. Within a safe, caring, and academically challenging learning environment, students focus on creating their best work, achieving personal satisfaction for their accomplishments, and maintaining behavioral expectations. To support students, the faculty and staff teach character education lessons and encourage students to surpass their academic and social expectations.

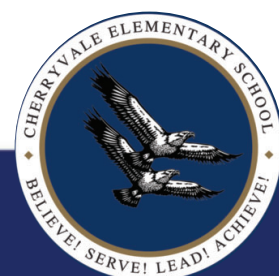

Cherryvale Elementary is a Green Steps School, as recognized by the South Carolina Green Steps Schools Environmental Education Initiative. The school is also an Arts in Basic Curriculum (ABC) School, as and the South Carolina Arts Commission. In addition, the school is a Positive

Behavior Interventions and Supports (PBIS) school, which rewards students for displaying appropriate behaviors.

Increasing student achievement requires the support of a reading interventionist and two instructional coaches for instruction and reading. Teachers and staff use professional development training sessions to create high progress literacy classrooms, to develop hands-on science experiences, to provide individual and small group learning opportunities, and to incorporate manipulatives in mathematics classrooms. In other words, the Cherryvale staff and students endeavor to become a fast developing Science, Technology, Engineering, and Mathematics school!

Thus, maintaining partnerships among administrators, teachers, parents, students, and community members assist the school with developing students who become leaders. Achieving academic excellence helps students meet the Profile of the South Carolina Graduate.
