School Theme:	Where Knowledge is King
Enrollment:	815
Average Class Size:	23

Brief Summary of Instructional Program _____

Kingsbury Elementary is meeting the profile of the South Carolina graduate and developing world class skills in our students by providing innovative and challenging learning experiences in a safe, supportive and culturally diverse environment. Our school strives to maximize the potential of every child through strong relationships, high expectations and quality instruction.

Kingsbury's faculty and staff work together diligently to implement highly effective teaching strategies. These include: guided math, guided reading, CAFÉ model, Lucy Calkins writing program, differentiated instruction, integration of subject area content and use of FOSS Science Kits. The addition of two reading interventionists has provided more intensive remediation to under achieving students in their identified areas of weakness. Math interventionists are successfully working with our teachers to assist all students in mastering the required standards. The Kingsbury science lab continues to provide hands on

learning activities for our students. The courtyard garden is currently being transformed into an outdoor classroom. The Read to Succeed initiative was effectively executed through professional development and support provided by our reading coach. The entire instructional team continues to promote best practices in teaching and provide the resources needed to raise student achievement.

Kingsbury is committed to developing well rounded students. This year our fine arts department produced programs integrating dance, drama, and chorus music. Kingsbury is currently implementing the ABC (Arts and Basic Curriculum) grant totaling \$34,527 over a three year period. Our PBIS program continues to provide positive behavior incentives for our students. The Knights in Training and GEMS mentoring programs offer excellent role models for our students to emulate and develop strong character traits. Kingsbury students are also taught the value of serving others, and our school participates in numerous service projects.

Phillip Jackson, Principal
